

## OPERATORS READY TO QUIT STRIKE

Orders From Chicago Expected Shortly—More Men Than Jobs.

Present indications are that the telegraph strike, so far as Washington is concerned, will end in three or four days. The strikers say they will not formally call the strike off here until official orders are received from the general executive board in Chicago, but since the return to work of the men in the two commercial centers, Chicago and New York, it has been a foregone conclusion that Washington must follow suit.

The surrender of the Chicago strikers is understood to have been with the sanction of the executive board, and this leads to the belief that official orders are now en route to Washington and other cities calling the strike off. Preparations are now under way for the abandonment of the eastern, which has been maintained during the summer by about a score of the strikers at Cabin John Bridge. If present plans mature a unique and amusing method will be employed by the strikers in "breaking camp," and a number of local operators will be on hand to witness the ceremony.

It is estimated that there are now between thirty-five and forty operators still on strike, not including those who have gotten leased wire or other positions, and those who have taken positions out of town. Numbers of others have returned to work with the companies with the last month.

According to the managements of the two companies possibly not over a third of these men can be given positions at present, even should they vote to return to work. Both companies claim to have practically full forces, but say that such operators as are desirable will be taken back or put upon the waiting list upon individual application.

## COMMERCE CHAMBER MEETS AT RALEIGH

Buffet Luncheon Will Be Served at November Meeting.

The November meeting of the Chamber of Commerce Tuesday evening will be held at the Raleigh Hotel instead of at Gude's Hall, as announced this morning. At an adjourned meeting of the executive committee last night, arrangements were made to hold the session in the banquet hall of the hotel and for a buffet luncheon. President Harper says that a number of important reports will be made to the Chamber at its meeting Tuesday.

This afternoon, at the offices of the Chamber, the retail trade committee is meeting to arrange final details for the out-of-town shopping days in December. D. J. Kaufman, chairman of the committee, has completed all preliminary arrangements and will make a full report. It is said that he has engaged a man to push the work through and that quarters for the accommodation of visitors have been secured.

The booklet committee, of which Charles W. Claggett is chairman, held a meeting yesterday afternoon in his office and framed a full and detailed report for submission to the Chamber Tuesday evening. The report covers the form of the booklet, material included, advertising privileges, and circulation plan.

The committee appointed by President Harper to consider the petition of the retail meat dealers, protesting against the form of stamps now used by the Government for meat inspection purposes, also held a meeting yesterday. Further evidence was produced to demonstrate the inefficiency of the device and the injury entailed to the meat business. A number of butchers were invited to appear before the committee Thursday afternoon at 3 o'clock. A representative of the Bureau of Animal Industry of the Department of Agriculture is also expected.

## MISSION SOCIETY ORGANIZED.
